

# 11PlusDIY 2015-16 Programme

11PlusDIY will prepare you for the  
2016 Grammar School Examination

Studying for the 11Plus is about parents and students working together, using the right resources at the right time and in the right way.

# Who are 11PlusDIY?

- ▶ 11PlusDIY was formed in 2010, by parents and academics who were unhappy with the quality of Saturday morning 11Plus tuition in their local area.
- ▶ Today, 11PlusDIY is the nations largest provider of 11Plus specialist courses, on line tuition and Mock Exams.
- ▶ 11PlusDIY don't not believe in hot-housing students and forced study. Passing the 11Plus successfully is about parents and students working together, using the right resources at the right time and in the right way for both of you.
- ▶ 11PlusDIY provides local specialist services through a network of local tutors, built upon best national expertise and practices.

# 11PlusDIY - A Brief History

- ▶ In 2010, 11PlusDIY became the first provider of 11Plus specialist on line tuition.
- ▶ In 2011, 11PlusDIY began producing 11Plus specialist test papers
- ▶ In 2012, 11PlusDIY began providing Mock Exams nationwide, but focused in every venue on only the local syllabus and local exams.
- ▶ In 2013, 11PlusDIY began providing specialist week long tuition and revision courses in the school holidays to help students prepare.
- ▶ In 2014, 11PlusDIY began providing specialist 11Plus training courses on the individual subjects that students find the hardest (Cubes, Nets, Long and short Mathematics and English Comprehension).
- ▶ Today 11PlusDIY are a full service provider, who provide full Tuition Courses from specialist local tutors, Mock Exams throughout the year, Test papers for use in you own home. This year we are launching our a new 2015 online portal with over 50,000 updated questions covering the full updated CEM syllabus and with new performance indicators providing all the information and analysis you need.

11PlusDIY services are focused and will allow students the opportunity to pass the 11Plus Examination.

Studying for the 11Plus is about parents and students working together, using the right resources at the right time and in the right way for both of you.

# 11PlusDIY 2015-16 Programme

This section outlines the 11PlusDIY programme of events for  
academic year 2015 - 2016

# 11PlusDIY 2015-16 Programme

The 11PlusDIY 2015-16 programme is broken down into three stages:

1. Introductory (September to December 2015)
2. Learning and Skills (January to June 2016)
3. Refresh and Revision (July to September 2016)

Each stage has been carefully written to encourage students in the key areas of study. We seek to ensure that students do not over study or peak too early. By having injections of learning throughout the academic year students can learn core skills that complement and build upon other forms of learning.

Please remember 11PlusDIY is designed for parents who want to be involved in students study.

# 11PlusDIY 2015-16 Programme

## Part 1 - Introductory (October to December 2015)

- Begin your On-line training and Test papers to complete at home.
- Book your “Introduction to exam” course for November 2015, which includes your first Mock Exam
- Complete your first 11Plus Skills course in November & December (Short Mathematics for the 11Plus is core learning).

## Part 2 - Core 11 Plus Skills (January to June 2016)

- Continue On-line training and test papers at home.
- Book your key skills courses in Winter & Spring. Long Mathematics, NVR Rotation, Cubes & Nets and English Comprehension are core learning.
- Book your first “Intensive training courses” over the Easter Holiday and May Half term school holidays (4 day of core 11Plus skills learning)
- Attend a Mock Exam every month to test your skills and build confidence.

## Part 3 - Refresh and Revision (July to Sept 2016)

- Continue On-line training and test papers to complete at home.
- Attend our specialist skills refresher courses the core subjects for the 2016 exam - This is an exam focused learning course.
- Book on our Intensive revision course, (4 days giving you the focused revision and final exam training you will need)
- Attend our Final Mock Exams (focused purely on the local Exam)

# Part 1 - Introductory (Highlights)

October 2015 - 11PlusDIY Online training, test papers and planning for the 11 Plus

November 2015 - Introduction and Understanding Course (including Mock Exam)

A one day introductory course and Mock Exam is designed to outline the 11 Plus environment to parents and children, followed by an appropriate Mock Exam. This will start to introduce students early to the Exam environment.

December 2015 - Specialist skills courses - Short maths

A one day specialist course introducing short mathematics for the 11Plus. Short maths skills underpin much of the 11Plus and this short course will provide the skills necessary for 2016.

Part 1 - Introductory, demystifies the exam environment through the first Mock Exam. The Exam room is not to be feared and by introducing it early, students will learn this. During Part 1, students work with parental support online to understand the core question types, attend their first specialist skills course (short Mathematics) and approach 2016 with a good understanding of each subject and be looking forward to the Exam.

# Part 2 - Learning & Skills (1)

January 2016 Specialist skills course - NVR Cubes and Nets

A one day specialist course on NVR Rotation, Cubes and Nets. This is the subject that most students find difficult. This short course provides the skills necessary for the exam.

February 2016 Mock Exam 1

The first Mock Exam of 2016 provides students with an opportunity to test the learning and tuition to date in a real Mock Exam environment.

February 2016 Specialist skills course - Long Mathematics

A one day specialist course on Long Mathematics. This is the subject that has featured most commonly in new syllabus. This course provides the skills necessary for the exam.

March 2016 Specialist skills course - English Comprehension

A one day specialist course on English Comprehension. Comprehension questions are very demanding. This short course will provide skills necessary for the exam.

Part 2 - Learning & Skills provides the key learning and skills needed to progress through the exam. The focus of Mock Exams during this period is to test the skills needed to pass the 11Plus. Exams are structured on this basis. Students will continue online testing (without parents) and attend specialist skills courses (Long Mathematics, NVR Cubes and Nets and English) to master key subject skills.

# Part 2 - Learning & Skills (2)

## March 2016 Mock Exam 2

The second Mock Exam of 2016 provides students will an opportunity to measure their learning and tuition to date in a real Mock Exam environment.

## March & May 2016 Intensive Training Courses

The two Intensive training courses in April and May 2016 school holidays are designed to inject core 11 Plus learning. The courses is provided over 4 days of core subject teaching, providing students with a necessary breath of tuition to really embed skills.

## April, May & June 2016 Mock Exam 3, 4 & 5

These Mock exams provide the key testing time to ensure that learning is on track. The Mock Exams are designed to test skills and subjects, such that any deficiencies are flagged up to promote increased learning and tuition. This is the best time to find this out.

Part 2 - Learning & Skills provides the key learning and skills needed to progress through the exam. The focus of Mock Exams during this period is to test the skills needed to pass the 11Plus. Exams are structured on this basis. Students will continue online testing (without parents) and attend specialist skills courses (Comprehension and Cubes and Nets).

# Part 3 - Refresh & Revision

## July & August 2016 - Refresh Courses - Mathematics, Comprehension & Cubes/Nets

We provide four specialist course refreshing those subjects that we believe are the hardest to learn and teach. Deep knowledge of these subjects has historically separated the top quartile students from others in the real exam.

## July & August 2016 - Intensive Revision Courses

Two Intensive revision courses in July and August 2016 are designed to ensure that students are prepared for the exam and that final revision is focused on achieving the right result. The courses include 4 days of core subject revision focused very heavily on being exam ready.

## July & August 2016 Mock Exam 6 - 10

These Mock exams are set in the local exam format and focused very much on exam focus. The Mock Exams will reveal any deficiencies before the exam. This is the time to know.

Part 3 - Refresh and Revision is designed to keep the pace going right through to the exam. The focus of Mock Exams during this period is to test the skills to above the local standard to pass the 11Plus. Exams are structured on this basis. Students will continue online testing and attend revision courses to ensure that their first choice school can be achieved.
